Story

All creatures mutated into aggressive monsters after a meteorite shower. The only Hero tried to protect the world, but he was killed by monsters. The magic book Scripture used up it's power and injected its soul into Hero's body. The Hero was reborn but he became "junk item man"

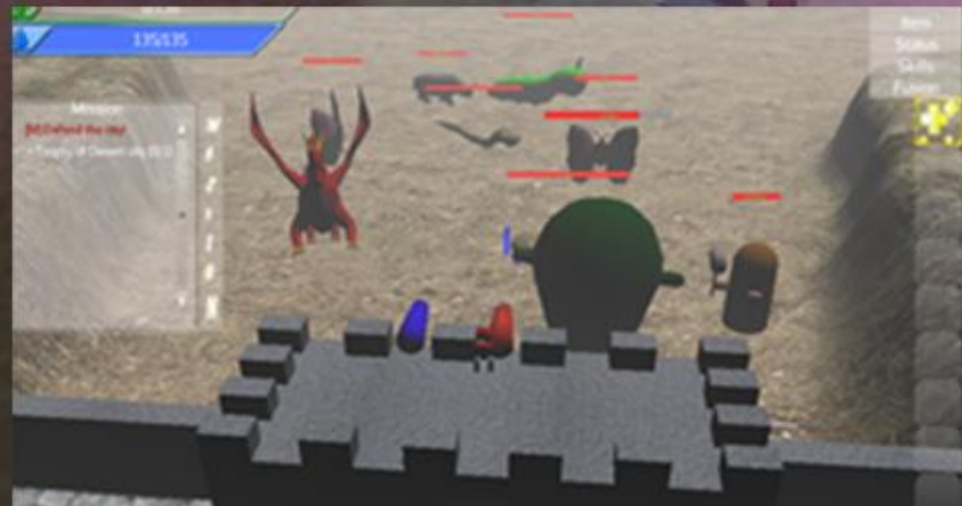

RPG Mode

Freely walk around and fight with monsters! There are six different monsters in each terrains. You can experience the feeling of killing monsters! All these creatures are precious and you cannot meet them in your real life. Now you have the chance to find them out and kill them with your magical skills! You can even upgrade your skills by elements dropped from dead monsters! Let's try to walk around and find them out

Castle Mode

Watch out! Monsters are approaching and try their best to destroy your castle!. You have to protect your castle by killing all the coming monsters. All the six different types of monsters gather together and try their best efforts to attack the castle. You need to make use of you magical power and two cannons on the castle to defeat them. But the most horrible monster is the legendary dragon...Can you defeat them?

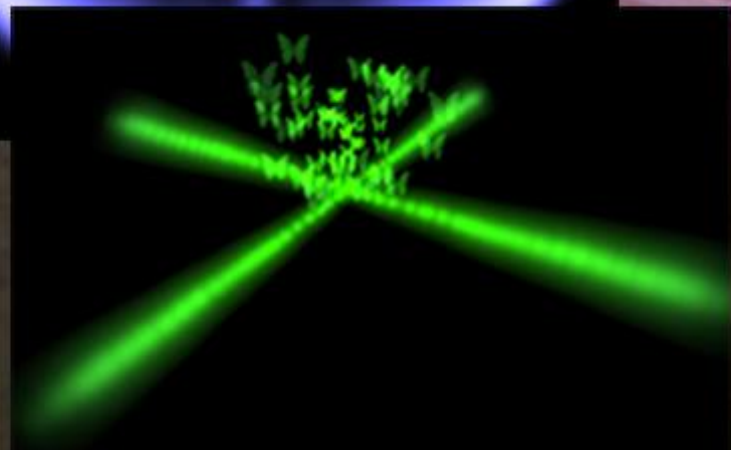

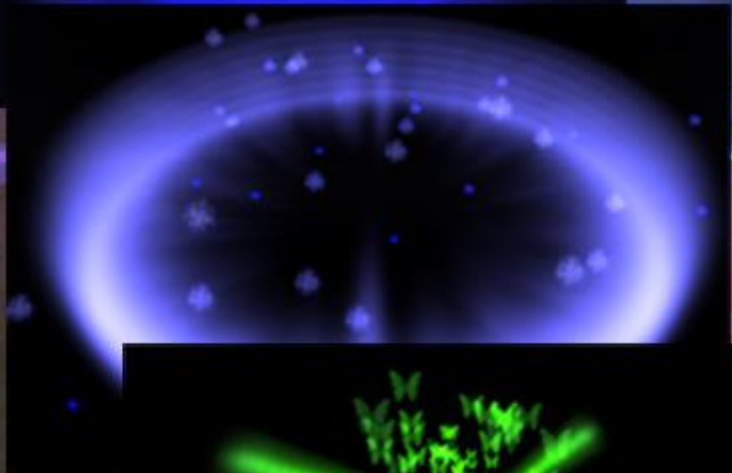

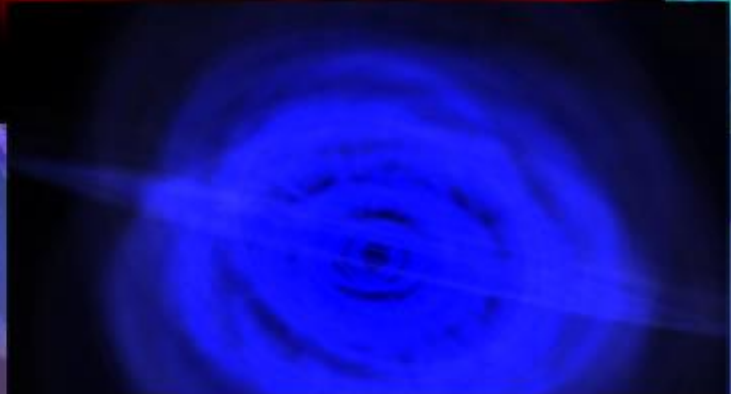

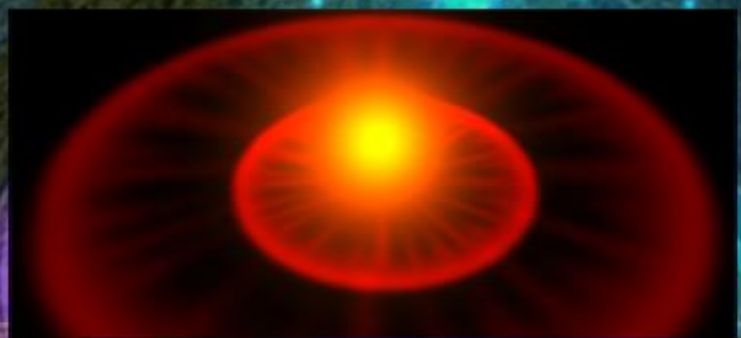

Theta* Algorithm

Monsters are stupid and have no sense of direction!! However, they have learnt the Theta* Algorithm and have the ability to reach any places which watch a map. When the player walks near them, they will chase the player and dodge all the obstacles

Paging System

Computer with not enough RAM cannot play our game? Not a problem here! Our Paging System can save a lot of resources and is very efficient. So you can play Scripture even with your Windows XP computer!!
