Q13. What is good about the course?

1. Actually, I think the course is very good and very helpful. But it is difficult especially the final project and also the workload is heavy for me. I spent a lot of time on the course
2. I can learn many interesting techniques in a specific field.
3. Students can learn the state-of-arts (techniques, theories, and) in mining software repositories.
4. practical and interesting

Q14. What could be done to improve the course?

1. I think writing review for every paper is a heavy load. I need more time to consider my project
2. It is better to do the project with a partener. Sometimes i just do not know what's the problem of my program. So I think it is better to have a partener to do the project
3. more survey style presentation
